

# ICAO PILOT LICENCE CONVERSION

CONVERT YOUR ICAO-APPROVED PPL OR CPL TO A CASA LICENCE

#TheSkylsCalling

# UNDERSTANDING THE CASA CONVERSION PROCESS

Pilots who have trained overseas and obtained their PPL or CPL from ICAO-approved countries are able to have their licence (and ratings) converted, but understanding the requirements can be confusing. Our **ICAO Pilot Licence Conversion** course has been designed to help PPL and CPL holders from ICAO-approved countries complete the conversion process.

**Conversion from an ICAO licence requires both theory and practical flight training.** Depending on your current licence and experience, you may require conversion training for instrument, commercial and/or multi-engine flying.

# CONTINUE YOUR TRAINING, OR START YOUR AVIATION CAREER IN AUSTRALIA

In addition to learning more about CASA regulations and operations, during this course we will familiarise you with the specific aircraft type, local procedures and flying in CASA-regulated airspace.

Converting your ICAO-approved overseas licence to a CASA licence will allow you to continue your flight training in Australia, and **for CPL holders it will allow you to fly for Australian airlines and other Australian aviation organisations.**

## OUR GRADUATE: **KENNY WON**

*"I was impressed with LTF's professionalism and also the variety and quality of their aircraft fleet when I visited from overseas. I decided that I wanted to have my FAA PPL converted so that I could continue my CPL training with LTF in Australia. I can now train at one of the busiest training airports in the Southern hemisphere, which gives me the confidence to fly anywhere" – Kenny Won (from Korea, converting FAA PPL)*
